Grammar

In Use

GRAMMAR IN USE draws on the science of how people learn, the best practices of English language teaching, and the everyday realities of classrooms. The result is a learner-centered series that brings together precision, creativity and purpose.

What makes GRAMMAR IN USE different?

- ◆ **STRUCTURED PROGRESSION:** From warm-ups to conceptual notes to comprehensive exercises, each lesson is carefully scaffolded so that learners move confidently from recognition to independent use.
- ◆ **ACTIVE ENGAGEMENT:** Grammar games and activities transform rules into hands-on tasks, making learning playful, interactive and enriching.
- ◆ **INTEGRATED SKILLS:** With listening, speaking, comprehension and guided writing, learners strengthen fluency across all four skills, not just grammar in isolation.
- ◆ **CROSS-DISCIPLINARY CONNECTIONS:** Exercises draw on science, history and everyday contexts, showing learners how grammar shapes understanding across subjects.
- ◆ **COGNITIVE REINFORCEMENT:** Features like Word Watch and Grammar Tip target common confusions, supporting recall and building lasting accuracy.
- ◆ **HOLISTIC LEARNING:** Values, life skills and mindfulness tasks connect grammar to collaboration, empathy and responsibility, to make language learning meaningful beyond the classroom.
